

IF YOU'LL BE MY WOMAN by: Cees Veerman

Heaven will be there at last
If you will come with me
We will forget about the past
The future's ours to be
If you'll be my woman
If you'll be my woman

We'll take a trip to the promised land
Where grass will grow so high
I'll be the singer of a one man band
Yes we will reach the sky
If you'll be my woman
If you'll be my woman

Night and day we'll be together
Sharing everything for ever
Happiness will come our way
It won't take long
Peace will be our destination
Life won't need no explanation
Everything will turn out right from being wrong
If you'll be my woman
If you'll be my woman

We'll take a trip to the promised land
Where grass will grow so high
I'll be the singer of a one man band
Yes we will reach the sky
If you'll be my woman
If you'll be my woman
